

WINGSForum Philanthropy and the New Economy

Resource bank

If you weren't able to join us on May 20 for our virtual session of [#WINGSForum2021](#) on Philanthropy and the New Economy, you can find the recording [here](#).

In this final session, we welcomed a group of five thought leaders and a fantastic moderator to discuss and debate philanthropy's role in reimagining and implementing new economic models. The panel explored the nature of our current problem, alternative economic models, and philanthropy's role moving forward.

As we developed and ran this event, as well as the corresponding exclusive workshops for our members, we came across plenty of resources. We've listed some of those here to help support your own work in this area.

- **Approach** | [Reimagining capitalism-Pierre Omidyar Network](#)
